Career Objective

Software Engineering undergraduate with experience building full-stack web applications using React.js, Node.js, and MySQL. Developed secure, scalable systems including an e-commerce platform and interactive chat application. Strong foundation in UI/UX, data structures, OOPS, DBMS, and modern web technologies.

Education

Galgotias University Bachelor of Technology (B.Tech) in Computer Science and Engineering, Greater Noida, India GPA: 8.7	June 2022 – June 2026
St. Andrew's Public School Senior Secondary Education, Agra, India Grade: 87%	March 2021 – March 2022
SunFlower Public School Secondary Education, Agra, India Grade: 83%	March 2019 – March 2020

Experience

Cadera Infotech <i>Full Stack Developer Intern</i>	<i>Present</i>
- Contributing to the development and maintenance of web applications using modern full-stack technologies. - Collaborating with the development team to design, build, and optimize scalable features across frontend and backend systems. - Writing clean, efficient, and maintainable code following industry best practices. - Participating in debugging, testing, and performance optimization to enhance application reliability and user experience.	

Projects

Real-Time Chat Application <i>Tech Stack: React.js, Node.js, Express.js, Socket.IO, JavaScript, HTML, CSS</i> GitHub Repository	Jan 2026
- Building a real-time secure chat platform supporting 10+ concurrent users with instant message delivery using WebSockets. - Implemented 2-way bi-directional communication via Socket.IO, reducing message latency to under 200ms. - Developed backend services to manage user sessions, message broadcasting, and active connections. - Designed a responsive React-based chat interface, improving usability across desktop and mobile screens. - Version-controlled 10+ code changes using Git and GitHub to ensure clean and traceable development.	
E-Commerce Web Application <i>Tech Stack: React.js, Node.js, Express.js, MySQL, JWT, REST APIs, Local Storage</i> GitHub Repository	Sep 2025
- Developed a full-stack e-commerce platform supporting 100+ products, user accounts, shopping cart, and order management. - Built 15+ RESTful APIs to handle authentication, product catalog, cart operations, and order processing. - Implemented JWT-based authentication and bcrypt password hashing, reducing unauthorized access risks by 90%. - Designed a responsive React.js UI supporting desktop and mobile devices, improving user engagement and navigation efficiency. - Optimized MySQL queries and API responses, reducing page load time by approximately 25%.	

Technical Skills

Programming Languages: Java
Frontend Technologies: HTML, CSS, JavaScript, React.js, Node.js
Backend Technologies: REST APIs, JWT Authentication
Databases: MySQL, MongoDB
Version Control: Git, GitHub
Developer Tools: Figma, LeetCode, GeeksforGeeks
Computer Science Fundamentals: OOPS, DBMS
Professional Skills: Communication, Teamwork, Problem-Solving, Adaptability, Leadership

Certifications

Cisco: CyberSecurity Course	June 2025
Smart India Hackathon	Sep 2024
Galgotias University: Dextrix Hackathon	April 2024
